

## NEWSLETTER SPRING 2011

PO Box R185, Royal Exchange NSW 1225 T 1300 134 567 E [info@CURECANCER.org.au](mailto:info@CURECANCER.org.au) [www.CURECANCER.org.au](http://www.CURECANCER.org.au)

### THANKS TO YOU

## A BREAKTHROUGH IN THE FIGHT AGAINST CANCER!

AS A CURE CANCER SUPPORTER YOU SHOULD FEEL PROUD OF AN EXCITING BREAKTHROUGH ANNOUNCED IN AUGUST.

Working within a talented team of scientists, **former Cure Cancer Australia Grant Recipients**, Professor Robyn Ward and Dr Megan Hitchins have found a genetic mutation responsible for making people susceptible to colorectal, bowel and other cancers.

Robyn and Megan were part of a study of three generations of a large family who developed colorectal cancer at a young age.

- The family did not have the genetic mutations normally linked with the cancer.
- However, several members from all generations had a biochemical tag that switches off the anti-cancer gene MLH1.
- A mutation was discovered near the gene that attracted this tag.
- This DNA change was then passed on to the next generation.

**Professor Robyn Ward** (picture above on the right) is the head of the adult cancer program at the Lowy Cancer Research Centre at UNSW and co-leader of the study. A Cure Cancer Australia Grant Recipient in 1994 & 1997, Robyn says "this research is very exciting because it identifies a new way cancer is inherited.

While we were always suspicious that these individuals probably have underlying 'spelling mistakes' in their DNA, we hadn't actually been able to find the exact spelling mistake that was causing the cancer."

**UNSW's Dr Megan Hitchins** (pictured on the left) and a Cure Cancer Grant recipient in 2005 & 2006, also led the study. According to Megan, "this subtle spelling mistake in front of the gene literally served like a magnet to attract a biochemical called methylation which then turns the gene off," she said. "But in this family, attracting the methylation to sit on top of their gene and turn it off is actually an error, because that gene, because of its anticancer properties, is meant to be switched on." Megan says "Our team is very grateful for the support we have received from Cure Cancer Australia in the past".

This discovery **may help to diagnose families at risk of hereditary cancers**, and potentially allow treatment to switch a vital anti-cancer gene identified back on. Important breakthroughs such as this are only made possible by the dedication of scientists like Robyn and Megan who have devoted years of hard work and patience to their projects. By investing in Australian researchers when they need our support early in their careers, you help them realise life saving breakthroughs for the future.

Thank you! By supporting innovative projects, you ensure that progress is being made. To learn more about Robyn and Megan's breakthrough - visit the Success Stories section on our website [www.curecancer.org.au](http://www.curecancer.org.au) or call 1300 134 567.

# THANK YOU, WE ARE LUCKY TO HAVE YOU ON BOARD!

Dear fellow supporters,

Thank you so much for your support of Cure Cancer Australia. I appreciate that you have a choice you can make to remain engaged and we greatly value your contribution. Through your vision and commitment to the fight against cancer, we will 'win this war'. Throughout 2011, I have been delighted to hear

from our 21 researchers across the country and to note the progress that they have been making in their projects. We are also pleased to report success stories from three of our former Grant Recipients, which confirms that your precious funds are being directed to the right place!

As you know, we are unique in the cancer research sector because of our commitment to young researchers who hold the key to innovation and a brighter future for us all. Videos of these researchers and information on how your contribution makes a difference can be found under the research section of our website, [www.curecancer.org.au](http://www.curecancer.org.au).

We thank all of you who have either donated or raised money on our behalf. Programs such as Can Too, Inspired

Adventures, Community Fundraising Initiatives, Corporate Partnerships, Events, Tax Appeal donations, Newsletter donations, Bequests; and Running Programs such as the City2Surf, Run Melbourne, Pub2Pub or Blackmores Sydney Running Festival are all essential so we can continue to fund new research projects to combat cancer. The achievements made today are only possible with your belief in the power of research and your support. \$50 funds one hour of research. Your contribution to the vital hours already invested is never taken for granted!

Thank you once again and we hope you enjoy this edition of our newsletter.

Leanne Warner  
CEO, Cure Cancer Australia

## OUR RESEARCHERS SAY THANK YOU!

**Dr. Fares Al-Ejeh, Queensland Institute of Medical Research (QIMR) Brisbane**

"I would like to thank Cure Cancer Australia and their sponsors for the funding I received in 2010. I have had many positive changes in my career since receiving this grant that are greatly driven or influenced by this funding. I joined one of the top research groups worldwide in the area of my research and I believe that having funding from Cure Cancer Australia was a contributing factor.

I have now completed preliminary experiments to test the safety of a combination of treatments against cancers"

**Thank you.**

**Dr Tracy Putoczki, Ludwig Institute for Cancer Research**

"I would like to thank the Cure Cancer Australia Foundation, its supporters and Tour de Cure for supporting my research in 2010. My research has focused on a soluble molecule called 'Interleukin-11', and its role in gastrointestinal cancer progression. With your help we have been able to test new therapeutics against this molecule, which show promise in fighting gastrointestinal cancers. As a result of this work, I have a successful NHMRC 2011-2013 New Investigator Grant and a successful 2011 CASS Foundation Grant, which will allow me to continue my research in gastrointestinal (and other) cancers. I thank you for support that you have provided and I look forward to keeping you up to date on my progress!"

## THE MACQUARIE FINANCIAL INSTRUMENTS ROCK!

The Macquarie Financial Instruments Charity Fundraising Bash was held in August for the second year in a row in

aid of Cure Cancer Australia. Guests were rocking along to the great sounds of this very talented and diverse group of Macquarie Group staff members. We would like to extend a very special thank you to the Macquarie Group Foundation for their continued and valued support for Cure Cancer Australia. Through their support we can continue to invest in Australia's bright young researchers. We would also like to thank the band members (pictured left) and support crew,

MC for the evening - Alex Doughty, the Macquarie Event team and all who made this special night possible. In total the Financial Instruments Charity Gigs have raised funds to support 440 hours of research! Thank you Macquarie Group!

Macquarie Group  
Foundation

To learn more about the Cure Cancer grant recipients that you have helped to fund. Visit the Research section on our website [www.curecancer.org.au](http://www.curecancer.org.au) or call 1300 134 567.

# OUTSTANDING RESEARCHER OF THE YEAR

## PROFESSOR ROGER REDDEL

IT'S NOT EVERY DAY YOU FIND YOURSELF IN THE COMPANY OF A SUPERSTAR! PROFESSOR ROGER REDDEL IS DIRECTOR OF THE CHILDREN'S MEDICAL RESEARCH INSTITUTE (CMRI) AND CHAIR OF CURE CANCER AUSTRALIA'S RESEARCH COMMITTEE. AS CHAIR, HE PARTICIPATES IN THE RIGOROUS SELECTION PROCESS OF OUR YOUNG INVESTIGATOR GRANT PROGRAM DETERMINING WHICH PROMISING PROJECTS RECEIVE FUNDING AS A RESULT OF YOUR GENEROUS DONATIONS AND SUPPORT.

Roger was recently awarded the 2011 Premiers Award for '**Outstanding Researcher of the Year**'.

Roger was an early career Cure Cancer Australia Grant Recipient in 1992. Two decades later, the research Roger and his colleagues are involved with today holds truly thrilling possibilities. They are analysing the molecular mechanisms which make cancer cells immortal – something Roger refers to as “one of the key pillars of the cancer phenomenon.” This work is laying the basis for development of drugs targeting the mechanisms upon which 98% of all human cancers depend for their continued growth.

Roger and his group discovered alternative lengthening of telomeres (ALT) in human cells present in human tumours. “We've done a lot of work trying to understand the mechanism, working steadily towards the aim of knowing enough to come up with an anti-cancer drug that targets it,” he explains.

Does this mean a potential cure? “In fact that is exactly the prize we're going after,” Roger says. “And I'll be disappointed if it doesn't happen within my working lifetime.”

Congratulations to Roger and his team who are a true inspiration to us all!

For more information on Roger and his inspirational work or to **DONATE** now, visit [www.curecancer.org.au](http://www.curecancer.org.au) or call Edith Hurt, Research Program Manager on 1300 134 567.

## RAMS TO THE RESCUE!

We are excited to announce that RAMS Home loans have joined the fight against cancer by nominating Cure Cancer Australia as their charity of choice. A RAMS launch kicked off this wonderful partnership on 26th July. RAMS CEO, Melos Sulicich, senior staff and employees gathered to learn more about Cure Cancer Australia and to hear from Cure Cancer grant recipient Dr Joshua McCarroll about his progress in finding innovative treatment therapies for advanced brain cancer. Since 1995, RAMS has been helping Australians realise the 'Great Australian Dream' of owning their own home.

RAMS has done that through an extensive and innovative range of home loans and flexible options - making it affordable for people to own their home. Cure Cancer Australia is proud to support researchers when they are struggling to find funding and feel there is a synergy with RAMS philosophy to give first home buyers their first chance to get into the market.

**We look forward to working with the RAMS team and thank them once again for their invaluable support.**

Dr Joshua McCarroll with Raymond the RAM!

## THANK YOU - THE AMAZING PEOPLE PROJECT

Can Too participant Emma Hogan (pictured left) is the brain child of The Amazing People Project (TAPP) in which everyday people sign up to raise \$1,000 for five worthwhile charities including Cure Cancer Australia. The TAPP team has already raised \$65K with a target of \$100K by Dec 31st. Go Emma and the TAPP team! Inspired? It's not too late to sign up and get a whole lot back in return or to help, **please donate!**

[www.theamazingpeopleproject.gofundraise.com.au](http://www.theamazingpeopleproject.gofundraise.com.au)  
or  
call Jo on 1300 134 567.

# MOVING MOUNTAINS FOR A CURE!

Mount Kilimanjaro, Machu Picchu & the New York Marathon see our fundraisers reach new heights!

WHAT A YEAR IT HAS BEEN! SINCE LAUNCHING OUR FIRST INSPIRED ADVENTURE IN 2010 WITH OUR 'RACE ACROSS ASIA' CHALLENGE, 60 PASSIONATE FUNDRAISERS HAVE TAKEN ON LIFE CHANGING CHALLENGES ON BEHALF OF THOSE WHO CAN'T.

## Mount Kilimanjaro! Africa

In 2011, two groups of spirited individuals took on Mt Kilimanjaro, the highest mountain in Africa. This extraordinary challenge had our fundraisers and climbers digging deep to climb over 5,000 metres in tough conditions in the name of cancer research. People from all ages ranging from 25 to 70 took on this formidable mountain. The result? An incredible summit success rate of 90%, a life changing experience for our participants and vital funds raised for

Cure Cancer Australia. A bonus was the deep friendships made for life along with the knowledge that anything is possible with the right training, determination and like-minded comrades supporting you all the way!

**Want to be part of the cure and move mountains? Our next trips to Kilimanjaro are in February & September 2012!**

## Machu Picchu – Peru

Our intrepid Peru trekkers from our Machu Picchu Challenge in May, visited the sites of Peru, made a visit to a local project, explored Cusco and visited the Sacred Valley of the Inca. They embarked on a challenging trek through the Lares valley and finally down to Aguas Calientes

for a full day of exploring the magnificent Machu Picchu – the lost city of the Incas. The group got along like a house on fire and the funds they raised will make a world of difference to current and future cancer sufferers!

## New York Marathon – November!

While climbing mountains and trekking Peru is no mean feat, running 42kms is a different type of challenge our New York runners will be facing this November for the New York Marathon Event! This

requires serious physical training and determination to prepare to run this gruelling distance! But if anyone can do it, our 13 runners can. They are psyched and ready to take on New York. We know they have what it takes and we can't wait to hear all about their accomplishments once they have crossed that finish line! Go Team Cure Cancer! **Always wanted to run a marathon but needed an incentive?** We have limited spots in April 2012 for the London Marathon (the world's biggest fundraising event) and the Paris Marathon! There is no better cause to put your running gear on for!

## Thank you to our participants

According to our participants who sign up to these challenges with a difference, their lives have become richer as a result, because they are achieving their own personal goals while helping to find a cure for cancer. The impact of the funds raised by our inspirational participants will last a lifetime! Thank you to all of our Inspired Adventures participants for their incredible passion and commitment!

**You have raised a phenomenal total of 9,000 hours of research!**

## UPCOMING ADVENTURES YOU CAN GET INVOLVED IN!

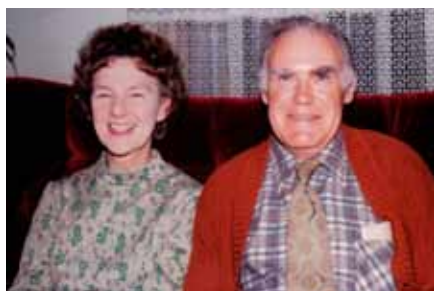

In 2012, you have the chance to join our next round of Challenges! We have something for everyone with our Everest Base Camp Challenge in Feb, Mount Kilimanjaro Challenges in Feb & Sep, Walk the Great Wall of China Challenge in May, Swim Europe Challenge in August and coveted spots in the sought after London and Paris Marathons in April.

For more information on how you sign up for these trips of a lifetime for 2012, see our flyer enclosed with this newsletter or visit [www.inspiredadventures.com.au/curecancer/](http://www.inspiredadventures.com.au/curecancer/) or call 1300 905 188.

# THANK YOU MAX COY FOR LEAVING A LEGACY OF HOPE

Maxwell Francis Coy 1926-2010

We would like to share the story of Max Coy, a very special long term supporter of Cure Cancer Australia. Max Coy was born on 20th April 1926 at "Cooinda" Private Hospital Cowra at a time when his parents, Tom and Genevieve were living in Beckom - he was the third of 3 boys and

had a sister Joan.

Max went to Work for the Bank of NSW in March 1942 and then went into the Army at 18, assigned to Cowra. Within 2 days the Breakout happened, and he later saw action in PNG and Darwin. After the army, Max rejoined the Bank in 1946 where he met and married his wife of 60 years Gwendoline. In May 1956, Max and Gwen had a son, Graeme, who unfortunately died at 16 from Leukemia. Max was a popular and respected man - warm, loving with a good sense of humour - a people person. A secret passion of Max's was helping others through generosity.

Not just extended family, but to many charities and others in the wider community who quietly received money to help them at a time of need. Max and Gwen celebrated their 60th wedding anniversary on 7 October 2010. Max survived Gwen and on his own passing he chose to leave a bequest in his will to Cure Cancer Australia.

**Thanks to special people like Max, the vital work of Cure Cancer Australia can live on. If you would like to enquire about leaving a gift to Cure Cancer Australia in your will, call Leanne on 1300 134 567.**

## CURE CANCER RECOGNISES TWO LIFE MEMBERS

### GOVERNMENT HOUSE

Cure Cancer Australia held our annual Researcher Reception on Thursday 12th May at Government House, Sydney. Our 2011 researchers were presented to Cure Cancer Australia Patron, Her Excellency

Professor Marie Bashir AC, CVO, Governor of New South Wales. Guests heard first hand about the progress made by our 2010 funded Researchers and enjoyed meeting the 2011 Research Grant Recipients. Cure Cancer Australia also recognised two retiring Board members, Professor Martin Tattersall AO and Stewart Ewen OAM. Martin and Stewart were presented with Life Membership awards for their exemplary contribution to Cure Cancer Australia over a considerable number of years. We wish them well and thank them once again.

Pictured: Professor Martin Tattersall AO, Her Excellency Professor Marie Bashir (Governor of New South Wales), Max Gosling (Chairman Cure Cancer Australia) and Stewart Ewen OAM.

## WORLD'S BEST BYO SYDNEY'S FINEST UNITE FOR CANCER RESEARCH

The World's Best BYO (WBBYO) held at the Fink Group's Quay Restaurant is Cure Cancer Australia's premium annual fundraising event. Fine wine selected from guest's personal cellars and award winning food are a magic combination to bring Sydney's most fortunate together to raise much needed funds for Cure Cancer

Australia. Thanks to the generosity of guests and sponsors, over four years, the WBBYO has raised the equivalent of 12,500 hours of cancer research. Thank you to the Fink Group, Quay Restaurant, BLACK Communications, Louis Vuitton and all those involved.

**The next World's Best BYO is on the 19th June 2012. Tickets are \$1,000 per person. To reserve your seat for this incredible fundraising event, please call Jo Gilbert on 1300 134 567.**

Pictured: Quay Restaurant set for the WBBYO, Philip Corne & Richard Roxburgh, John & Kerri-Anne Kennerley with Neena & Nicholas Davie, John Fink

## THANKS TO YOU – CAN TOO IS ON THE RISE!

CAN TOO HIT THE \$7,000,000 EARLIER THIS YEAR AND WE ARE ON OUR WAY TO \$8,000,000. THANK YOU TO EVERYBODY FOR THE AMAZING, AMAZING SUPPORT THAT ENABLES US TO ACHIEVE THESE INCREDIBLE MILESTONES AND FUND MORE YOUNG RESEARCHERS.

### MARGARET ANNE HAYES – BECOMES HIGHEST CAN TOO FUNDRAISER EVER

MARGARET – ANNE HAYES  
CAN TOO'S HIGHEST FUNDRAISER

Hitting the \$90,000 mark with her Fundraising Ball held in August this year. Congratulations Margaret Anne for funding an entire year of research single handedly!

Thank you so much for your stellar support.

### ERIK PAARTALU BECOMES NEW AMBASSADOR

Brisbane Roar FC Grand Final Hero, Erik Paartalu is excited to become a Can Too Ambassador. Erik is a professional A league player and we look forward to his support for Can Too especially in Brisbane.

## GOLD COAST MARATHON – HALF MARATHON AND 10K EVENT: INAUGURAL MARATHON TRAINING IN SYDNEY

Sixty valiant Can Tooers trained for the first time in Sydney for the Gold Coast Marathon held in July, joining our Brisbane trained half marathoners and 10kers. This program was embraced so fully by our Sydney siders that we will be offering it again next year. Thank you to the all our supporters and runners in the Gold Coast Event. Your wonderful contribution funded another researcher and a half!

## RUN MELBOURNE AND BLACKMORES SYDNEY RUNNING FESTIVAL

Nearly 600 Can Tooers participated in Run Melbourne & Blackmores Sydney Running Festival! Thanks to their amazing efforts another \$750,000 was raised for cancer research.

BLACKMORES SYDNEY  
RUNNING FESTIVAL  
PARTICIPANTS!

RUN MELBOURNE  
HALF MARATHON GROUP  
START

NIKKI MERCER BECOMES A  
HALL OF FAME CHAMPION  
RAISING \$10,000

GRAHAM EVANS & CREW  
SUTHERLAND TO SURF RUN

## THANKS TO MACQUARIE GROUP FOUNDATION

for its continued and loyal support as our Principal Supporter funding our program costs and offering support in many other ways through pro bono assistance, employee participation and volunteering. Thanks also to **Sargent Pies Foundation and Sarah O'Carroll** for a wonderful contribution towards covering our growing training and venue costs.

# CENTURIONS – INVESTING IN THE FUTURE OF CAN TOO

If running and swimming are not for you, you may be interested in becoming a Centurion and funding a new training location/ pod instead. By becoming a Centurion, you are ensuring that Can Too will continue to grow in Sydney, Melbourne or Brisbane. Your investment of \$10,000 enables us to start a whole new pod and those 50 or 60 Can Tooers go forth, do a program and raise upwards of \$75,000 for Cure Cancer. **Thanks goes to our Centurions;** Margaret Anne Hayes, Brent Cubis, Thomas and Ingeborg Girgensohn, Cooper Investors and the Cooper Family, Simon Buckingham, Martin Patience , John Boes and Samantha Taranto. We simply could not continue to grow without this financial support. If you or the company you work for may be interested in becoming a Centurion or Sponsoring Can Too, please contact [annie@cantoo.org.au](mailto:annie@cantoo.org.au) or [Susannah@cantoo.org.au](mailto:Susannah@cantoo.org.au).

## NEW STAFF AT CAN TOO

We would like to introduce Jacqui Prins as our new full-time Program Manager in Melbourne, Gail Davies as

our new Program Coordinator in Sydney and Tesse Crozier as Sydney based Administration Co-ordinator. Susannah Miall has been promoted to Business Manager (Acting). We are very excited to have these people supporting our team: Wendy Falconer -National Program Manager, Tammy Kleviansky - Mentor and Volunteer Coordinator, Amy Bridle - Brisbane Program Coordinator, Gordon Campbell - Coaching Coordinator and Annie Crawford - Founder and Director.

## RESEARCHERS

Can Too now funds Researchers in Victoria, New South Wales and Queensland. One of the highlights for our Can Too runners in the winter months is when our researchers come and share their amazing research stories with us at the track. It is makes us all realise what we are sweating the pavements for.

Thank you to all of our guest speakers.

## NEW EVENTS - TWILIGHT HALF MARATHON QLD AND GREAT OCEAN RD VICTORIA

Get fit, get excited, and get pumped!

GOLD COAST RUNNERS!

Can Too is offering two new events to train for. For the first time we will be offering you a second run program in Brisbane with training beginning in November for the Twilight Half Marathon. Have you ever wanted to run an Ultra Marathon? Now is the time for you. Go for the ultimate in stretch goals! Sydney and Melbourne Marathon training for the Great Ocean Road Marathon 20 May 2012 commences 30th November.

## Swim training

Begins end of October in Sydney and Melbourne. We know you have always wanted to face your fears of the ocean and sign up for the swim. It is so much fun and you will get so much out of it. Visit our website [www.cantoo.org.au](http://www.cantoo.org.au) for further details.

## CELEBRATIONS

Come Celebrate with us

Can Too has reached an incredible \$7,500,000 raised! We will be celebrating with all Can Tooers, supporters and sponsors at this very special celebration to held on Tuesday 25th October in Sydney.

## Can Too Social Committee Christmas Party - December 10th

Following the success of last year's party, our Can Too Christmas party will be held at the Establishment Hotel in Sydney. Tickets are \$85.00. Contact [HeathHeathFelton@gmail.com](mailto:HeathHeathFelton@gmail.com) or [Keir.ksemments@tccorporate.com.au](mailto:Keir.ksemments@tccorporate.com.au). We look forward to seeing everyone have a great night!

CAN TOO MELBOURNE IS GROWING!

Annie  
& the Can Too Team xx

# WE LOVE OUR COMMUNITY FUNDRAISERS

## THANK YOU

to all of our fundraisers who get directly involved by organising a fundraising activity to raise money to support our young cancer researchers! We are so very lucky to have your support. There are so many individuals and groups to mention; however, hopefully you all know who you are and we have been able to thank you personally! Keep up the great work, your contribution makes a mammoth difference in this big fight against cancer! A few highlights of community fundraising events are below.

**Thank you** - The Royal Prince Alfred Yacht Club For your Sail 4 Cure Cancer and Casino inspired fundraiser! We really value the ongoing support of this special club and its generous members.

### Thank you

- All of our great fundraisers on Everyday Hero & Go Fundraise
- City2Surf Golden Charity Ticket Fundraisers, Runners & highest fundraiser Linda Mead.
- Blackmores Sydney Running Festival runners who collectively raised over \$100,000 & highest individual fundraiser Justin Power
- The MADR ADFA Cadets Running Group
- Bobbin Head Cruising Club
- The Flinders Island Community & David Williams for his Big Run4 a Cure
- Captain Adventure – Stuart Brown
- The cast & crew of 'Anything Goes'
- Ian Dear - fundraising around OZ
- Avid Fundraisers - Fiona McWhinnie & Greg Buxton
- The BCCC Kayak Challenge
- Kathleen Britten, Di Hasler, Malcolm Cameron & the Gunnedah Community
- Margaret Smith
- Irene & Nick Koutsogiannis

**Thank you** - The University of Sydney Medical Revue. A witty satire called Beauty & Deceased was written, directed, produced & performed by 1st Year University of Sydney medical students. The shows were a huge hit with a talented cast & raised much needed funds for Cure Cancer Australia.

**Thank you** - The Basilisks Rugby Club for your charity fundraiser in July for Cure Cancer Australia. Held in support of two players's wives being recently diagnosed with two different forms of cancer. Your hard work will help us win the fight sooner!

**Bling It On** – Funds 7.5 months of research! Glynn Ianno and the Revue

Revellers once again wowed North's Leagues Club with their energetic show Bling It On! The commitment of Glynn and the cast and crew of 70 people is inspirational. Cabaret Capers in 2009 and Bling It On, has now seen the Revue Revellers raising funding for 7.5 months of cancer research. This is an incredible contribution. Thanks Glynn, The Rotary Club of Roseville Chase & The Revue Revellers.

## HAVE YOU BEEN IMPACTED BY CANCER & WANT TO SHARE YOUR STORY?

Inspirational stories of courage and survival remind us that research is already saving lives and that cancer sufferers are not alone in this fight.

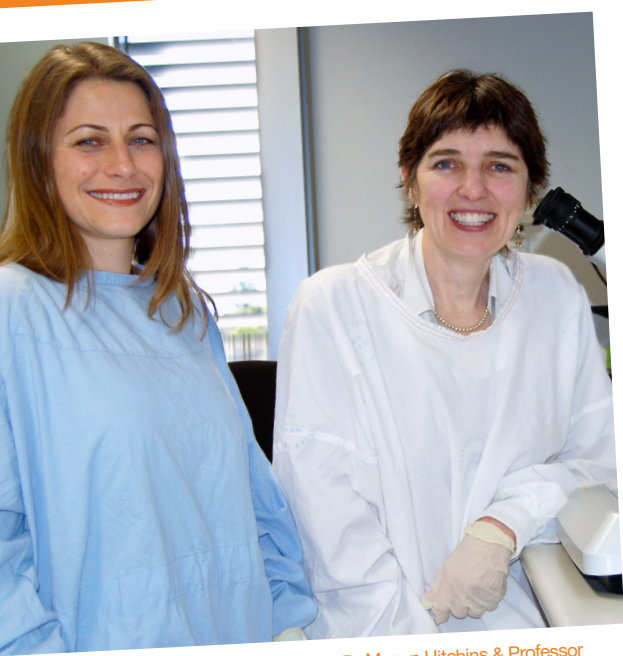

Our Researchers and ourselves will not rest until a cure is found. By sharing messages of hope, we aim to inspire and recognise those who have been through the mighty battle of cancer and would like to share their story.

**If you would like to share your story, contact Jo on 1300 134 567 or [jjgilbert@curecancer.org.au](mailto:jjgilbert@curecancer.org.au).**

ONCE AGAIN, THANK YOU FOR SUPPORTING CURE CANCER AUSTRALIA. BY INVESTING IN YOUNG RESEARCHERS OF TODAY, WE GUARANTEE PROGRESS AND THE POSSIBILITY OF 'A WORLD WITHOUT CANCER, NOTHING LESS!'

THE CURE STARTS HERE

CURECANCER.org.au

Former Cure Cancer Grant Recipients, Dr Megan Hitchins & Professor Robyn Ward have made a discovery that will help diagnose families at risk of hereditary cancers, and potentially allow treatments to be developed.

## Incredible Progress is being made!

You have helped make this happen, thank you.

Thankfully, you have already joined the fight against cancer by supporting Cure Cancer Australia. Your generosity has invested in young researchers who have dedicated their lives to finding a cure for cancer. These researchers provide beacons of hope for a brighter future for all Australians. Former Cure Cancer Australia Grant Recipients; Professor Roger Reddel, Professor Robyn Ward and Dr Megan Hitchins show us that important breakthroughs are possible in cancer research. Thank you for backing them at a critical time when they needed funding to continue their life saving work.

Thanks to research, more and more people are surviving cancer. However, one life lost to cancer is still one too many. We need your continued help to ensure we can give as many researchers as possible the chance to get in to the lab to test new ideas which will ultimately combat cancer.

Thank you for joining us in the fight, we will not rest until it is won and no lives are lost to cancer.
