

**IS LOOKING FOR INNOVATIVE, HIGH-ACHIEVING  
EARLY CAREER RESEARCHERS.**

**NATIONAL GRANT FUNDING \$90,000 (+GST) FOR 1 YEAR**

**Cure Cancer Australia Foundation invites your application!**

“Start up” funding is available for researchers Australia wide with less than 7 years post-doctoral experience to support a project grant in any field of research (including clinical) into malignant disease.

For details on how to apply, see [www.cure.org.au](http://www.cure.org.au)

Cure Cancer Australia Foundation is partnering with Cancer Australia to offer this funding via the 2009 round of the Collaborative Cancer Research Scheme. Further information about the grants scheme can be found on the Cancer Australia website [www.canceraustralia.gov.au](http://www.canceraustralia.gov.au). Relevant documentation, including application forms and instructions for applicants will be published on the websites of Cancer Australia and the National Health and Medical Research in December 2008, to coincide with the opening of the call for applications on 8 December 2008.

Applications close Tuesday 17 March 2009 midnight AEST.
